

# M.E.S.:

What is it, and how do I combat it?

The Imperial Academy of Psionic Learning and Wellness

## What is M.E.S.?

*Metadimensional*

*Extroversion Syndrome* is an affliction that affects the brain and makes it perceive a fourth dimension. Unfortunately, our brain is not naturally evolved to soften the strain, and as such *Untreated M.E.S.* is quite deadly for both yourself and your surroundings.

## Do I or my child have M.E.S.?

M.E.S manifests in puberty and early adulthood, most commonly between 15 and 21, and it is usually heralded inexplicable incidents that seem to defy the laws of reality, like an unordinary amount of déjà vu, hearing the inner voices of your friends or having books fly into your hands when you need them. However, such signs are sometimes hidden, and thus it is **obligatory** to get tested at your local Serpens clinic, for the safety of us all.

## I have M.E.S., what do I do?

If you, or someone you know, are afflicted by M.E.S. you should immediately go to your local Serpens clinic, as untreated M.E.S. is a danger to society and should be reported at once, and they will get you in contact with a nominator, who be your link to the Academy.

## I don't have the money for the tuition for the Academy.

Fear not, for we at House Serpens are glad to sponsor your stay at the Academy and provide a job related to your skills after you pass your P.I.E.'s (Psychic Interaction Evaluations). All you have to do is to contact a nominator, and they will bring the necessary paperwork.

## M.E.S. Facts:

Over the last 100 years, Serpens Practitioners have increased the average lifespan of M.E.S afflicted citizens by 20 years. Due to their specialized treatment plans.

If your parents or grandparents have M.E.S., you are more likely to be afflicted your selves.

On average 1.4519 of every 10 thousand human in a system is afflicted by M.E.S.

Synths are unable to be afflicted by M.E.S.

99.863% of M.E.S. afflicted, who don't get treatment end up dead before their 25<sup>th</sup> birthday and those who survive end up madder than a hatter.

M.E.S. afflicted who have passed their P.I.E.s have one of the lowest unemployment rates in the Empire.

## Quotes:

*"I was living on the streets, digging through trashcans and hearing the thoughts of those around me, but then a nominator found me, and now I am working as junior nominator, helping those in the same position as mine."* – Junior Nominator Serpens Drey Erik.

*"I was shocked and scared, when my daughter showed symptoms of M.E.S. but my colleges recommended talking to a Serpens representative, and within a week my daughter was on her way to the Academy. She still sends me postcards of her and her friends, even though she passed her P.I.E.s last year."* – Concerned parent from Maya.
